

That which is hateful to you, do not do to your neighbour. That is the whole Torah, the rest is commentary. RABBI HILLEL

JEWS for JUSTICE for PALESTINIANS is a network of Jews who are British or live in Britain, practising and secular, Zionist and not. We oppose Israeli policies that undermine the livelihoods and human, civil and political rights of the Palestinian people. With 1700 signatories, we are the largest Jewish peace and human rights group in Europe.

WE BELIEVE THAT

- ▶ Peace in the Middle East will only come about with mutual recognition and respect and must be seen as just by both sides
 - ▶ Violence against civilians is unacceptable
 - ▶ Peace requires the end of illegal occupation and settlement
 - ▶ Israel's actions in the West Bank and Gaza are breeding hatred and resentment
- ▶ The Israeli state's human-rights abuses have corrupted the humanitarian values of Judaism
 - ▶ It is crucial that Jews speak out for Palestinians' human rights

The work that JFJFP has done is of profound importance for the human rights of Palestinians and Israelis and for reaffirming the long association between Jewish people and the struggle for human rights everywhere.
